Supply May Stop Here.

Comdr. Wm. Eldridge Sewell, U. S. N., has been detached from duty at the Portsmouth navy yard and directed to report for assignment as commanding officer of the U. S. S. Supply. This vessel will sail for the Island of Guam, where she is to be stationed as supply ship and rendezvous. She was formerly the Illinois, and was bought from the International Navigation Company in April, 1898, for \$325,000, is a fine vessel of 4,460 tons displacement, and has a bunker capacity of 467.5 tons of bituminous coal. Her present quarters have been fitted up with special reference to service at Guam, and all modern conveniences have been installed for the unique service intended—Army and Navy Journal.

The Globe Navigation Co.

Some one industriously scattered a story among business houses on the water front yesterday that the Globe Navigation Company of Seattle had decided to withdraw its service to this port. The story is absurd as the Globe Company has only recently secured a contract from the Government to carry coal to this port. This company is said to have purchased two new steamers of 12,500 tons register, each with which to inaugurate a service between Seattle and Manila. The S. S. Tampico is due at this port again on August 20.

Rates for Lumber Cargoes.

The latest reports from Tacoma state that charter rates for lumber cargoes from the Sound to Hawaiian ports are steadily decreasing and the latest rate offered was only 16¢. As an example of how lumber rates have decreased since 1881 it may be mentioned that in that year when Captain Burnham, now general manager of the American-Hawaiian steamship line, went to Tacoma as master of the bark Pactolus he got a rate of \$22 per thousand for a cargo of lumber to Melbourne. The best rate a vessel can now get is less than half this amount.

FAT NERVES.

A whirl of excitement was recently caused in the scientific world by the news that the mystery of nerve action has been solved.

It is announced that healthy nerves are fat nerves—and that it is the fat in the core of the nerve which is sensitive and by hardening and softening creates nerve action.

Maybe this explains why Scott's Emulsion has always been such a remarkable remedy for nervousness.

Scott's Emulsion feeds thin nerves with the best of all fats, the pure cod-liver oil and strengthens them with the best of nerve tonics, the hypophosphites.

For all forms of nervousness and neuralgia take Scott's Emulsion.
